

1 SHOT AT DRY-OFF CAN SAVE YOU MONEY
1 SHOT AT DRY-OFF CAN SAVE YOU TIME
1 SHOT AT DRY-OFF CAN SAVE YOU HASSLE

▶ **1 SHOT AT DRY-OFF CAN SAVE YOUR CALVES**

Guardian® vaccine provides broad-spectrum scours protection in a single shot at dry-off (5-7 weeks pre-calving), after the initial two-dose heifer regimen. That means lower overall costs and fewer shots to schedule. Plus, our sub-unit technology means fewer adverse reactions. Ask your animal health supplier about a complete scours management program using Guardian vaccine today.
